SUBJECT: Capitalization Threshold

In a memorandum, dated March 11, 2003, I advised that the expense-investment threshold was raised from \$100,000 to \$250,000. As a result of that memorandum, there has been some confusion about the Department's capitalization threshold. The Department's capitalization threshold for accounting purposes is not changing as a result of the change in the expense-investment threshold and will continue to remain at \$100,000.

The \$250,000 expense-investment threshold is only applicable to General Fund activities. Since Defense Working Capital Fund Activities (DCWF) rates are developed using depreciation of capitalized assets, the expense-investment threshold will remain at the capitalization threshold of \$100,000. This will facilitate rate development, which is dependent on accounting information, and eliminates the need to keep two sets of records for DWCF capital assets if the expense-investment threshold and capitalization threshold were different.

Should you need assistance with accounting procedures, please contact the Defense Finance and Accounting Service. My point of contact for this matter is Mr. Tom Waddell. He may be reached by email at: tom.waddell@osd.mil or telephone (703) 604-6350 x125.
